UVA Department of Chemistry Stats:

39 Affiliated Faculty Members

Departmental Staff, Administration, and Senior Scientists Total 22 Members

\$7.13M in Total External Funding

Avg of \$297K per faculty member, from sources including NIH, NSF, DoD, DOE

171 Graduate Students

45 Entering Graduate Students in Fall 2019

238 Undergraduate Chemistry Majors

85 Total Graduating Undergraduate Majors Anticipated for the 2019/2020

- Chemistry employed 54 Teaching Assistants in Fall 2019, working an average of 20 hrs/wk.
- There are 80 total Graduate Research Assistantships currently supporting Ph.D. students
 - 55 awarded by the Department, 25 by grant funding.
- Departmental Instrumentation and Facilities: three EPR Spectrometers, five NMR spectrometers for solution samples and one for solid samples (500-800 MHz), two Hi-Resolution Mass Spectrometers, a Nanoscale Materials Characterization Facility, and an X-Ray Diffraction facility.
 - Each of these instrumentation facilities is managed by a full-time staff scientist who can assist with data collection and analysis.
